

Transcendent Character in Leadership

Part of the “Ultimate Leadership” Training Series

Training for business and ministry leaders

with Dr. Henry Cloud

We often look at leaders as if they are larger than life.

Either the force of their personality or the nature of their accomplishments is somehow able to support such an image.

Some leaders even live out god-like patterns in their lives. When that happens, there is usually a fall, resulting in a lot of collateral damage.

This month on the **Ultimate Leadership** series on CCN, **Dr. Henry Cloud** will offer leaders a much different path to greatness, as they discover what it means to develop **Transcendent Character in Leadership**.

Leaders in business and ministry will learn the keys to developing a character that transcends by:

- Connecting with things that are larger than oneself.
- Choosing transcendent purpose over self-advancement.
- Becoming smaller as the true path to greatness.

Join us this month on **Ultimate Leadership** and take your leadership to a whole new level!

Dr. Henry Cloud, a clinical psychologist, is co-founder and co-director of Cloud-Townsend Resources. He is the best-selling author of *Changes that Heal*, and coauthor of the *Boundaries Series*, *How People Grow* and many others.
